Mr. Walter C. Heath,
c/o The Whitehead & Hoag Co.,
Newark, N. J.

Dear Mr. Heath:

You were elected to membership in this Society on November 16th last, and a notice of election was sent you two days later, and so far I have heard nothing from you on the subject.

I would be glad to be advised of your intentions in the matter at your convenience, as we desire to know just how our membership list stands before the close of the Society's year, which ends on January 17th.

Trusting that I will hear from you in due course, I am, believe me,

Most cordially yours,

Recording Secretary.

SECRETARY'S OFFICE

NEWARK, NEW JERSEY. October 23rd, 1912.

Mr. Bauman Lowe Belden, Secretary,
 Numismatic Society,
 156th St. W. of Broadway, N.Y. City

Dear Mr. Belden,--

I am interested in an article appearing on page 149 of the September issue of the American Journal of Numismatics, entitled "The New Medal Striking Machine in The French Mint"

Could you advise me from whom I could learn the name of the manufacturer of this machine, and some further particulars than appear in the article?

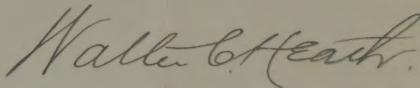

I wonder what is meant by the impressions being given while the metal is hot? It is the usual practice to anneal large medals between each blow, but we do not give the additional blow while the metal is hot.

I am wondering whether there is some new process, or information obtainable.

I would be glad if you would give me any information you have on the subject, or advise me whom I may address for further particulars.

I remain, with regards,

Very truly yours,

WCH-B

Newark, N. J.

Dear Mr. Heath:-

Your letter of October 23rd has been duly received. The article in the last number of the Journal on the new medal striking machine in the French Mint was obtained by Dr. Marvin, the Editor, and I do not know just where he got his information. I will however, write to him, and find out what I can and let you know as soon as possible.

With kind regards, I am,
Very truly yours,

Director.
